Volume Discount Purchased by One Firm: Bulls only
– 3 Bulls – 3% discount
– 4 Bulls – 4% discount
– 5 Bulls – 5% discount
– Maximum of 10%

Herd Health Birth: Solid dose neck pill covering all bacterial aspects of pasteurella Mycoplasma. Turnout: 7-way/IBR, BVD, BRSV, PI3, spore pill. Preweaning: IBR, BVD, BRSV, PI3, solid dose neck pill, Pasteurella Mycoplasma. Weaning: After wean (booster of IBR, BVD, BRSV, PI3 of greater magnitude) Semen testing: Lepto Vibrio, all strains IBR, BRSV, BVD, PI3, Harjo-Bovis; Anthrax, Foot Rot & Pinkeye and injectible Dectomax

Defects All animals are AM, NH, CA and DD free by pedigree or test unless otherwise stated.

Wintering of Bulls Bulls are kept free of charge until May 1st

Delivery Bulls will be semen tested by April 1. Anyone picking up their bull between April 1-15 will receive a \$100 bill. Delivery will start after April 15. Females – we will help arrange trucking.

Liability All persons attending this sale do so at their own risk.

Semen Interest RBM Livestock will be retaining one-third revenue sharing semen interest in all bulls selling. This means if we would like to collect semen on the bull for our own use, we would have the option to do so. Also, if semen is sold we would retain one-third revenue. The new owners of the bulls will have full possession and full salvage value.

Guarantee *The RBM Guarantee – the best in the cattle business.*

Watch & bid online for FREE at DVAuction.com

Buying online is as easy as 1, 2, 3...

1. Create an account at www.dvauction.com under the "register" tab
2. Apply for bidding approval by clicking on the "details" tab at least 24 hours prior to the auction-a DV representative will notify you once you have been approved
3. Tune in for the sale and make your purchases!

High speed internet is required for bidding-be sure to check the lag-time monitor in the top left corner to ensure real-time broadcasts.

Proxy bidding-register a proxy bid & let our system represent your bid while you're away. Look for the "proxy bid" tab on the auction listing, and fill in your maximum bids. We'll handle the rest!

Having troubles? You can type a message to the operator or call (402) 474-5557.

DVAuction DVA Rep. Justin Dikoff (605) 290-0635 – email jdikoff@dvauction.com
Broadcasting Real-Time Auctions Please feel free to contact me with questions about the sale or to view the cattle.

EPDs updated as of 2-6-17

*Best Guarantee in the business -
the RBM Guarantee!*

Welcome!

It is our honor to present this set of cattle to you. We think there are cattle in this offering that will fit many aspects of the cattle industry regardless of breed, seedstock, cow/calf, backgrounder, and finisher.

We have worked hard to give you, our customers, cattle that will move your programs forward and in return create more value with your end product. We again have had the opportunity to sit in many auction markets this year and bid/buy many cattle with the RBM genetics. It is very rewarding to watch our customers receive a premium for their RBM genetics.

As in previous years, we will offer many full and half brother bulls, this in turn will make a more uniform set for you to sell and in addition a closely related set of replacements. Many of these bulls are suitable for heifers.

New this year! We will present 15 head of big, stout, coming two-year-old bulls. These bulls HAVE NEVER BEEN OFFERED BEFORE. We think this set is very impressive and think you will agree.

We will be semen testing the bulls by April 1. Any bulls picked up between April 1-15 will be receiving \$100 bill.

The bred heifers in the sale were sorted and bred for this sale and this sale only. Call or stop by and view the cattle anytime.

*Thanks for your interest
in our program.*

This mating was one that we were pretty excited to have the opportunity to get. Kristen Roe successfully showed this heifer. We watched and admired this heifer. When the chance to purchase a flush, we jumped at it. Turton x Rhinestone could cover the base on making a great Charolais genetics. Check him out, you be the judge.

OK, when you talk about muscle you have no idea how much muscle this rascal has. He is moderate framed, muscled up, power bull that is unreal. He is built like a box car.

Quality Bull Selection can Increase ROI

By Sara Brown, AgWeb

This story appeared in the January 2017 issue of *Drovers*.

In the process of saving on inputs, some producers might cut back on the money spent for replacement bulls. But using a bull of reduced quality could impact profitability for the next several years due to heavier birth weights, lower weaning weights, lower carcass quality or less desirable replacement heifers. Those who produce calves with desirable genetics and value-added traits will have the greatest likelihood of remaining profitable.

How can you justify spending more on a quality bull in difficult economic times? Researchers at The Samuel Roberts Noble Foundation say to consider two scenarios. Scenario one: Use an average quality bull that costs \$2,750. Scenario two: Purchase a high quality bull in the top 20% for weaning weight EPD that cost \$3,500. Both bulls will remain in the breeding herd for four years and breed 25 cows per year, totaling 100 calves. The annual cost for each bull on a cow basis is \$35.60 and \$43.10 for scenario one and two, respectively. The scenario two bull only costs \$7.50 per cow more annually compared to the lower quality bull in scenario one.

On the revenue side, calves are weaned in early October. Calves from scenario one wean at 535 lb., valued at \$135 per cwt, or \$722 per head. Scenario two calves had heavier weaning weights at 600 lb., valued at \$132 per cwt or \$792 per head—an increase of \$70 per calf from the better bull. Calves from scenario two have a positive net difference of \$62.50 more per calf (\$70 minus \$7.50).

This NFR son may be one of the Sale favorites around here. NFR to some is the best Wrangler son. Mated with this cow behind him, it only makes him better. She quite possibly is the best 5100 daughter here.

TR Mr Wrangler NFR 3526A

Commercial Bred Heifers

Lots 89-119

Bred to RBM Two Step C72

Due 3/22/17

We are excited to bring this set of bred heifers to you. We think they are real world cow makers. These heifers were sorted and bred for this sale and this sale only. We feel the opportunity to buy a set of Angus based heifers bred to RBM Two Step C72 is an opportunity to have some of the freshest genetics out of a bull with a bright future. The heifers will weigh 1250-1300 lbs and will have both rounds of scour shots. They are ultrasounded and sexed. We will re-preg test them before the sale and pour them again. We would be interested in purchasing the calves back next fall.

Commercial Yearling Heifers

Lots 120-219 Sell as Commercial Yearling Heifers

These heifers are mostly out of RBM genetics. The heifers are Angus-based and have the cow making look! The heifers are long, feminine and gentle with great genetics to make profitable cows. The heifers will weigh 775-825 on sale day. The heifers are fed to grow and will stay sound and not get fleshy. They are all running together in one 5-10 acre pen. The heifers are on the same vaccination program as the registered cattle. We will sell the heifers in numerical order. The bidder has the option to take 1-100 head in order. Heifers may be fed until May 1-15 at cost - talk to Mike or Ryan prior to the sale to discuss this option.

SURE FIRE CALVING EASE

WHY WE TEST WITH i50K FROM ZOETIS

Powered by i50K™ from Zoetis, our cattle sell with genomic-enhanced expected progeny differences (GE-EPDs).

With GE-EPDs, we're confident that customers like you can minimize risk in their investment — and enhance the productivity of your cattle.

The benefits of buying i50K-tested bulls and heifers goes beyond added accuracy for the complete range of traits for more productive daughters and progeny. You'll know early on what that animal is likely to transmit to its offspring and potential for performance in the feedlot and on the rail. You can also match the i50K tested sires you buy from us to match calves and replacement heifers — through GeneMax® Advantage™ and GeneMax® Focus™ — to make better breeding and management decisions down the road.

Knowing an animal's potential. Continuous progress of your herd. That's why we test with i50K.

Number of progeny records in conventional genetic evaluation needed to achieve the same accuracy as GE-EPDs powered by i50K
