Herd Health Birth: Solid dose neck pill covering all bacterial aspects of pasteurella Mycoplasma. Turnout: 7-way/IBR, BVD, BRSV, PI3, spore pill. Prewaning: IBR, BVD, BRSV, PI3, solid dose neck pill, Pasteurella Mycoplasma. Weaning: After wean (booster of IBR, BVD, BRSV, PI3 of greater magnitude) Semen testing: Lepto Vibrio, all strains IBR, BRSV, BVD, PI3, Harjo-Bovis; Anthrax, Foot Rot & Pinkeye and injectible Dectomax

Defects All animals are AM, NH, CA and DD free by pedigree or test unless otherwise stated.

Wintering of Bulls Bulls are kept free of charge until May 1st

Delivery Bulls will be semen tested by April 1. Anyone picking up their bull between April 1-15 will receive a \$100 bill. Delivery will start after April 15. Females – we will help arrange trucking.

Liability All persons attending this sale do so at their own risk.

Semen Interest RBM Livestock will be retaining one-third revenue sharing semen interest in all bulls selling. This means if we would like to collect semen on the bull for our own use, we would have the option to do so. Also, if semen is sold we would retain one-third revenue. The new owners of the bulls will have full possession and full salvage value.

Guarantee *The RBM Guarantee – the best in the cattle business.*

Watch & bid online for FREE at DVAuction.com

Buying online is as
easy as 1, 2, 3...

1. Create an account at www.dvauction.com under the "register" tab
2. Apply for bidding approval by clicking on the "details" tab at least 24 hours prior to the auction-a DV representative will notify you once you have been approved
3. Tune in for the sale and make your purchases!

High speed internet is required for bidding-be sure to check the lag-time monitor in the top left corner to ensure real-time broadcasts.

Proxy bidding-register a proxy bid & let our system represent your bid while you're away. Look for the "proxy bid" tab on the auction listing, and fill in your maximum bids. We'll handle the rest!

Having troubles? You can type a message to the operator or call (402) 474-5557.

*Best Guarantee in the business -
the RBM Guarantee!*

Welcome!

We are proud to present this set of cattle to you. We know from beginning to end these cattle are the best we have ever offered. We feel the genetics will help move the beef business in to the future.

Our goals stay the same as they have been for decades. Cattle that calve easy, gain fast, perform in the feed yard and have carcass value, and females that breed on time each year and convert rough forage to survive South Dakota's harsh weather.

It has been extremely gratifying to see RBM genetics excel or top the markets this past year. As always, we have had the opportunity to bid/buy/place/support our customers whether it be feeder cattle or bred cattle.

We will again this year be selling 2 year old bulls that were sorted and saved for this sale only. They are big, stout bulls that will cover a lot of cows.

New this year, we are selling any registered bred heifer ultrasounded to calf after March 1 (regardless). Some may have calves at their side by sale day.

Again we say THANK YOU for putting your trust in our genetics. We will do everything in our power to help you our customers to promote your cattle. It is our mission. Call or stop by anytime.

Thanks!

The Berghs
Mike & Barb

Heifer Bull. WOW!!! How do we even start to describe this bull? He has been a stand out since day one. He has more thickness, depth of body, muscle shape than any bull we have raised to date. He is big footed, has correct foot structure, calving ease headed, big testicled, flat shouldered, sound structured bull that is full of meat and wild numbered. You need to see him in person to appreciate this bull. He won't disappoint. He is so dog tame. Picture day was a challenge. You will appreciate him even more in person. Commercial Yearling Heifers

Lots 201-300 Sell as Commercial Yearling Heifers

These heifers are mostly out of RBM genetics. The heifers are Angus-based and have the cow making look! The heifers are long, feminine and gentle with great genetics to make profitable cows. The heifers will weigh 775-825 on sale day. The heifers are fed to grow and will stay sound and not get fleshy. They are all running together in one 5-10 acre pen. The heifers are on the same vaccination program as the registered cattle. We will sell the heifers in numerical order.

The bidder has the option to take 1-100 head in order. Heifers may be fed until May 1-15 at cost - talk to Mike or Ryan prior to the sale to discuss this option.

WHY WE TEST WITH i50K FROM ZOETIS

Powered by i50K™ from Zoetis, our cattle sell with genomic-enhanced expected progeny differences (GE-EPDs).

With GE-EPDs, we're confident that customers like you can minimize risk in their investment — and enhance the productivity of your cattle.

The benefits of buying i50K-tested bulls and heifers goes beyond added accuracy for the complete range of traits for more productive daughters and progeny. You'll know early on what that animal is likely to transmit to its offspring and potential for performance in the feedlot and on the rail. You can also match the i50K tested sires you buy from us to match calves and replacement heifers — through GeneMax® Advantage™ and GeneMax® Focus™— to make better breeding and management decisions down the road.

Knowing an animal's potential. Continuous progress of your herd. That's why we test with i50K.

Number of progeny records in conventional genetic evaluation needed to achieve the same accuracy as GE-EPDs powered by i50K
